DIY CRAFT: Balloon printing

OBJECTIVE: Create your own wrapping paper

Materials

- 12" balloon
- thick paper
- paints
- container (for paint)

Instructions

1. Get the balloons ready, as well as the paper, paints, and containers for the paint to go into.
2. Pour the coloured paints into the container which you wish to use (the paints can be poured next to each other in the same container).
3. Dip the smooth end of the balloon in the paints and print onto the paper.
4. You can repeat this process until you are happy with your designs.
5. Leave paper to dry.
6. This can be used as wrapping paper for a birthday, Christmas, etc.

Top tip

You can use different sized balloons, black paper, and a variety of paints to create your own solar system wrapping paper.
